

SAHA RESIDENTS

Under direction of the Board of Directors this notice is being sent to all members of the SAHA Community.

This has been an extremely hard winter. Between the huge amount of rain, cold temperatures, and high winds our vegetation has grown past the desired limits or have broken and are lying by the road sides. These conditions may hinder drivers to safely navigate our roads.

We are requesting residents to clear/cleanup their property adjacent to all roadsides as per SAHA requirements described in the attachment to this e-mail or found on the Road Committee webpage of the SAHA website. The deadline for this clearing / cleanup effort is Sunday, July 30, 2017. If the timing of this deadline creates a hardship please contact the Roads Committee.

On Monday, July 31, 2017 the neighborhood will be surveyed to ensure all lots are in compliance.

Owners of any lot deemed not in compliance will receive a written notice and be given two (2) weeks to meet roadside vegetation requirements. If not met, the Boards of Directors will be notified and the cleanup will be performed by a professional landscaping/tree trimming service and the lot owner will be charged as has been done in the past.

We regret the need to take this hard stand. However, we feel it is necessary for the safety of all the residents.

We appreciate your cooperation.

The SAHA Road Committee
